## BUSINESS NEED

As part of their efforts to transform their Digital Workplace, Toyota Financial Services needed to migrate 15TB of data from their on-premises Enterprise Vault solution to Exchange Online in the Microsoft Office 365 cloud without disrupting their 2,000 users or breaking the chain of custody.

## SOLUTION

Quadrotech Archive Shuttle by Quest is a proven archive migration tool that enabled Toyota Financial Services to quickly migrate their email archive data and journals from Enterprise Vault to Office 365 while maintaining compliance.

## BENEFITS

- Seamlessly migrated over 15TB of data
- Maintained total chain of custody
- Modernized their systems for efficiency, security and productivity

## SOLUTIONS AT A GLANCE

#### CHALLENGE

Toyota Financial Services had an on-premises Enterprise Vault solution and were migrating to Office 365 and Exchange Online as part of their Digital Workplace improvement program. They needed a software solution vendor to migrate archived emails from EV into Exchange Online, dealing with shortcuts and ensuring a nondisruptive user experience.

#### SOLUTION

After evaluating two other vendors' software, Toyota Financial Services chose Quadrotech, now part of Quest, due to a previous positive experience working with them to complete an Enterprise Vault migration, alongside the deep technical understanding they demonstrated during the Pre-Sales engagement.

#### OUTCOME

Toyota Financial Services migrated over 15TB of data seamlessly, which helped to modernize their systems for efficiency, security and productivity whilst maintaining total chain of custody and removing interruption to business.

Hemant Sohoni, Intel Manager from Toyota Financial Services said: “As part
